

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 48-55 are allowed for the reasons of record and in light of the interview conducted on 22 June 2009. Specifically, the closest prior art of record does not teach or fairly suggest a method of detecting a cell deposited on a slide using a computerized microscope system as is instantly claimed. The prior art does not specifically teach or suggest the automatic locating in an optical field of a cell candidate or a cell blob comprising a cell candidate by determining correspondence of digitized optical properties in an optical field with predetermined data indicative of said labeled cell, the automatic recording of coordinates, the automatic locating of the reagent dispenser over said cell candidate based on coordinate positions and the automatic dispensing reagent onto the cell candidate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

The Drawings submitted 4 March 2002 have been accepted.

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.
